COMMUNITY EXCHANGE

I, the undersigned, hereby authorize Vitae Family Care Clinic to store my information electronically and to exchange this information within the medical community (e.g. pharmacy, lab, hospital, referring provider) to continue my medical care. I understand and acknowledge that Vitae Family Care Clinic will use and disclose my information for purposes of treatment, payment, and healthcare operations as described in the Notice of Privacy Practices.

MEDICATION HISTORY

ePrescribing is defined as a physician's ability to electronically send an accurate, error free, and understandable prescription directly to a pharmacy from the point of care. Congress has determined that the ability to electronically send prescriptions is an important element in improving the quality of patient care. ePrescribing greatly reduces medication errors and enhances patient safety. The Medicare Modernization Act (MMA) of 2003 listed standards that have to be included in an ePrescribe program. These include:

- **Formulary and benefit transactions** — Gives the prescriber information about which drugs are covered by the drug benefit plan.
- **Medication history transactions** - Provides the physician with information about medications the patient is already taking to minimize the number of adverse drug events.
- **Fill status notification** - Allows the prescriber to receive an electronic notice from the pharmacy telling them if the patient's prescription has been picked up, not picked up, or partially filled.

I, the undersigned, agree that Vitae Family Care Clinic can request and use my prescription medication history from other healthcare providers and/or third party pharmacy benefit payers for treatment purposes.

PATIENT REFERRAL (CONSENT TO TREAT)

I, the undersigned, hereby consent to the administration and performance of all treatments, necessary and advised procedures, use of prescribed medication, performance of diagnostic procedures, tests, cultures, or any other medically accepted laboratory tests that may be considered medically necessary or advisable based on the judgment of the attending physician or their assigned designees. I fully understand that this is given in advance of any specific diagnosis or treatment and intend for this consent to be continuing in nature even after a specific diagnosis has been made and treatment recommended.

VITAE FAMILY CARE CLINIC MISSION & POLICIES

I, the undersigned, understand that Dr. McKernan is a Natural Family Planning only physician and that the Vitae Family Care Clinic will not administer or refer for birth control pills/devices, in-vitro fertilization, sterilization, abortion, or any other services/procedures in contradiction with its mission statement because of the commitment to providing higher standards of patient care and medicine free from dangerous side effects and environmental degradation.
